

Truth on the Scaffold

Patriotism Re-asserting

Vol.9 No.8

Editor: Dr T.H.Chowdary

Aug -2011

Frederic, the Great on Christianity

Revealed and organised religions with institutions staffed by paid clerics have throughout history tried to gain supremacy over temporal rulers and institutions notwithstanding Jesus Christ's exhortation: render unto Caesar what is due to him; render unto God what is due to Him. Frederic, the great, the absolute king of Prussia supported and promoted free thinking in the way of the Reformation in Christianity. He patronized scientists and philosophers as both contributed to the development of men and the state .

2. It is astounding that Frederic, the Great whose ideas and actions led to the unification of over a dozen German Principalities and Kingdoms into what has come to be Germany (since 1871) had this to say about Christianity

“...Christianity is stuffed with miracles; contradictions and absurdities, was spawned in the fevered imaginations of the Orientals and then spread out to Europe, where some fanatics espoused it, some intriguers pretended to be convinced by it and some imbeciles actually believed it .

Communal Harmony Bill

Your Editorial (IE 27/6/11) on the Prevention of Communal and Targeted Violence Bill is a timely warning though mild to the nation. It is brought with great mischief. The Constitution of the National Authority for Communal Harmony justice and reparations is unconstitutional. Actually a close reading of the bill reveals that the majority community namely Hindus are congenitally and habitually minority killers and that every communal riot is started only by the Hindus. Another obnoxious provision is that any minority person can without disclosing his identity file a FIR that so and so person made a communally hate speech against minority and the police are bound to register that case and arrest the person. This is as bad as Pakistan's blasphemy law. The Bill drafted by habitual, vote courting minority appeasers will further divide the nation into Hindus and the minorities and would lead to perpetual distrust, hatred and

potential explosive communal riots. All patriotic people irrespective of their religion should oppose this communal and fascist bill.

Houses for the Poor

Government of Andhra Pradesh has given out (AIR at 0650 Telugu news bulletin on 23/6/11) that 51 lakh houses had been built by it for the poor under the Indira Aavas Yojana in the last 7 years. Earlier during the various regimes also under this scheme without bearing the name of Indira, lakhs of houses have been claimed to have been built. All these add up to not less than one crore of government built houses for the poor. At an average of 4.5 persons per family more than half the families in Andhra Pradesh should be living in government built houses for the poor. Is this believable ? Go to any village, can we see 50% of the government built houses where the poor are living?

Food Security

The National Advisory Committee presided over by Soniaji had decided that 75% of the population of India should be given 35 KGs of food grains per month at subsidized prices and at no prices for the BPL people. This vast welfare by government has no parallel in the history of any nation. It would cost the tax paying people enormous amount. Despite Indira time launched garibhi hatao and the policies claimed to have been implemented by governments of every party in the states and in the Center, poverty is not going.

2. The main reasons are the furious growth of population especially among those who cannot afford it and lack of education which qualifies a person for gainful employment. China and other East-Asian counties are able to contain the population growth. That is why their BPL population is very small.

3. Would it not be wise for the poor caring leaders with bleeding hearts to constantly exhort people to have no more than 2 children and after an year of publicity **withdraw this welfare for all those who have more than 2 children**. By this qualifying condition, the nation would achieve the 2-child norm and therefore less growth of population. The money saved could be spent upon skill -imparting education for the masses.

Reconciliation & Nation Building

Sri Ahmed Kathrada's article (The Hindu 18/7/'11) on the above subject in regard to South Africa must be educative to India. It was very great & noble that the great Nelson Mandela soon after he assumed the Presidency of the Black majority ruled South Africa put in place, the Truth and Reconciliation Commission (TRC) in order that the two races one of which was a minority White settler group and the other the Black majority natives would confess their atrocities, exploitation and illegalities; repent, forget, forgive and sincerely agree to forge a new united non-racial, non-denominational integrated nation. Had Mahatma Gandhi or Jawaharlal Nehru instituted such a TRC so that the earlier minority Muslim rule and their residues actions leading to the partition of India and creation of the Islamic state of Pakistan to which homeland its creators in India did not migrate but stayed on in India and thus continuing the Muslim problem, could have been avoided. The negation of the past wrongs by the minority and the

persistent feeling of being wronged by the majority are continuing the Muslim (called “minority”) problem in India with the same intensity as before 1947. The nation building is being thwarted. Just as Peru followed South Africa’s example, it should be good for India also to establish a TRC so that the Muslim problem can be a thing of the past and we have a nation of one-mind, one-aim and one-destiny.

Hazare should emulate Lokanayak Jayaprakash

(Letter from Dr T.H.Chowdary to Sri Anna Hazare)

Dear & Res. Anna Hazare Sahib,

First I salute you for your courage to take on the corruption ridden government head on. The might of Sonia Gandhi is unprecedented; it is even more than that of Indira Gandhi. Indiraji was addressing the people; moving among the people and directly responding to questions. Sonia Gandhi is secretive, shuns Indians that is Bharatiyas and relies only upon rootless people like Ahmad Patel, Gulam Nabi Azad, Oscar Fernandez, Vincent George and persons with Hindu names but totally opposed to Hindus like Digvijay Singh. The danger you are exposed is great. But be courageous. There will be lot of calumny and slander. Don’t be afraid.

2. A good Lok Pal Bill alone cannot ensure a corruption free society. There are enough laws now to tackle corruption but they are not being implemented. Because it is the corrupt who are running the government.

3. Charity begins at home. Similarly, your battle against corruption should begin at the source. That is the source of power. The source of all power especially evil power in India today is, without doubt Sonia Gandhi. The Congress men are her slaves; worse than slaves; they are fawning animals; unmindful of national interest. You should challenge to Sonia Gandhi to come out with a “**White Paper**” rather a “**Sonia Paper**” in which she should list all the allegations so far made against her about her passport, about her illegal businesses not admissible to non-Indians; the Bofors, the 2G, the CWG, and so on scams. It is widely believed in Andhra Pradesh that the late Dr. Y S.Rajasekhara Reddy could have given not less than Rs. 30,000 cr to Sonia Gandhi during his 6 –years of rule. Another Rs. 50,000 cr are with that family . It is with that money that his son Jagan is able to defy and defeat even Sonia’s men in the recent bi-election in Cadapa.

4. So instead of wasting lot of energy on the Lok Pal Bill because even a good Act is made it will not be implemented as long as this lady is the sole source of power in the country. So you must train your guns upon her. The fast that you promise to undertake on 15 Aug should be to compel her to come out with a “**Sonia Paper**”. If it comes out on oath then either irresponsible allegations will be stopped or she could be dragged into courts and exposed for what she is and what empire she has built in India and abroad with the colossal amount of black money.

Today the Indian citizens have been brought to moral bankruptcy by opium like welfare measures among which is NREGS. About Rs. 48,000 cr are being distributed for no work at all. The various loan waivers and debt write offs are yet more opium to the people. Satisfied with

the crumbs , they would be tolerating the immoral and corrupt Dynasty rule for some time. To wake them up a Gandhian movement which will involve people like you going among the people and teaching them to be fearless in exposing corruption and desisting from corrupting others.

Bringing Back Black Money – Attack the Source

(In response to the Central Government's invitation for suggestions as to how black money stashed in foreign banks could be brought back to India the following letter was written)

bm-feedback@nic.in

Sir,

First I thank the government for inviting suggestions. But the thanks will be justified only if the government sincerely and seriously takes into account every suggestion that a responsible citizen makes.

- First, announce/make public names of the persons whose black money accounts in foreign banks and the amounts, that are already with the government
- Is the names of the criminals are not made public then it amounts to protecting them or colluding with them. Non-publication undermines people's faith in the honesty of the government.
- It is common knowledge that nothing significant happens in this country without the consent and direction of madame Sonia Gandhi, the president of the Congress-I and Chief of the UPA.
It is great that she is committed to **zero tolerance** of corruption and that she made a bold declaration to this effect.
- She must therefore publish a white paper called **Sonia Paper** listing out all the allegations that have been made in regard to her and their refutation on oath
- When did she get Indian citizenship, why did not she take it before, whether she holds an Italian passport, whether her late husband herself or any members of the family (that is, Rahul and Priyanka) has any foreign account; what is her relationship with Quotrochi and her part in his escape from India and un-freezing his account in London and CBI's withdrawal of the cases against him; whether A.Raja did what he did without her knowledge ;whether any money came to her or her family or to any foreign account out of the hundreds of crores that are believed to have changed hands and so on.
- Dr Swamy, former Finance Min of Government of India made specific charges against Sonia Gandhi. She must refute them on oath and file a defamation suit against Dr.Subramanian Swamy if she is innocent.
Her silence is being taken as acceptance of the charges made by Dr Subramanian Swamy.
- She must ask ministers like Dayanidhi Maran to resign while he is under investigation. He may be taken back if he is absolved.
- Black money can be got only if there is political will. The foreign banks which are keeping India's black money had to bow to the demands of Germany and the USA and disclose the names. If they could do so, why cannot India get them?

- Foreign banks that refuse to give information invoking some law or agreement or rule **should be expelled from India.**
2. I have confined myself to suggestions regarding how to get back the black money stashed in foreign banks. I am not making any suggestions about corruption and how black money is generated. These are rooted in our political system and our elections .
 3. A Political Party Regulatory Authority of India can reduce the corruption which is compulsively involved in politics and our electoral system. A paper on this is also sent along with this .

Mumbai Blasts – Kasabji’s Birthday

The Mumbai blasts on 13th of July 2011 were definitely in the coming as I had been having a premonition. Kasabji as I motioned in my earlier communication on is a patriot. He is a Muslim. His religion is Islam which means peace, Kasabji who is in the Arthur Road jail is not a terrorist. He has been falsely implicated in the 28 Nov 2008 bomb blast in Mumbai. I had appealed to Government of India that he should be set free, given Indian citizenship of a compensation of Rs. 100 cr be paid for falsely and cruelly incarcerating him in the jail for nearly 3 years. Because of injustice meted out to him, the minority in this country feels wrong and it has been waiting to avenge the wrong done to Kasabji. It should have been plain and clear to every right thinking person that Kasabji’s illegal confinement would be avenged by an enraged minority assisted or not by our great neighbour Pakistan with whom I have been advocating that we should develop brotherly relations .

2. Even it now it is not too late Kasabji as well as Afzalji who is also falsely implicated should be released immediately, apologized tendered and reparations pay and both must be given Indian citizenship and some important job in the Government of India. Only then there will be no recurrence of bomb blast to avenge the wrongful and cruel confinement and sentences awarded to them.

3. We may further expect that just as on the birthday of Kasabji there were bomb blasts. There could be bomb blast on the birthday of Afzalji also. Why should we invite that death on our innocent citizens. We should be prudent enough to immediately free Afzalji. freedom and justice and the good will of the minority can prevail only if Afzalji and Kasabji and immediately be released and honoured and fitting memorial is built to honour Osamaji who laid his life for the freedom of humanity, freedom from satanic rulers in America.

Chancellors of Private 'Varsities

Speaking (Chennai 11-07-11) in a panel discussion on the private sector role in higher education, Sri Gopalji Malvia, Head of the Department, Defense and Strategic Studies of the University of Madras lashed out at the proprietors of deemed and private universities calling themselves as Chancellors and for appointing their children as Vice Chancellors. He denounced the conferment of the status of Governor on the proprietors of private universities as Chancellor .

2. He seems to be forgetting that the rot started at the highest level in India. The daughter of a Prime Minister became the Prime Minister; son of a Prime Minister assumed the Prime Ministership, the widow of a Prime Minister grabbed the Presidentship of a political party; the son of the deceased Prime Minister is the Prime Minister designate by the will of the widow. If the Prime Ministership of a great country like India and Presidentship of a historic organisation can become proprietary, is there any wonder that the Chancellorship of private universities and Vice Chancellorship also become proprietary and belong to a family? The Bhagawadgita famously says that the ordinary people will act in the same fashion as the highest in the society. Afraid to criticise and denounce the source of corruption, intellectuals are lashing at their imitators.

Slavery

(Letter from Dr T.H.Chowdary to Bhavan's Journal)

Kamal Wadhwa's article, "The Practice of Slavery" (BJ, 31 May 2011) was informative but . One significant fact has not been mentioned. Christianity and Islam did not condemn slavery. The Prophet had a slave Billal whom he freed later on. Arab Muslim traders hunted for Black Africans in the interior of that continent and sold them as slaves to the Europeans who were colonizing America. Christianity also did not condemn slavery though it existed in Christian ruled states. The White Christians settlers in the US did buy and serve slaves. Any religion that speaks of God and says all human beings are created by him should be expected to condemn the inhuman practice of slavery. The White European Christian settlers who conquered South Africa imposed a status worse than slavery on the native Black Africans though they were converted to Christianity. They even practised untouchability and denied many human rights. They were forced into ghettos, so much so that a famous Black Christian Priest statesmen said, "when you (white Europeans) came, you had the Book and we had the land. Now we have the Book and you have the land". The Novel, "Uncle Tom's Cabin" (by Harriet Beecher Stove published in 1852) describes the sub-human status of Black African slaves owned and worked by their White Christian masters in the USA. There were of course great Christian souls who campaigned against slavery and the trade in slaves.

2. In contrast, to the non-condemnation and practise of slavery by the protagonists of Christianity and Islam, slavery was not sanctioned or upheld in Sanatan Dharma. The later practice of untouchability and reduction of certain strata of society to penury and perpetual poverty were excrescences that kept into Sanatan Dharma. Great souls like Buddha and in recent times Mahatma Gandhi, Jyotiba Phule, Dr. Ambedkar and several other leaders of India condemned slavery in the form of bonded labor and untouchability and ghettoisation and stridently led reform movements.

3. Finally these practices were outlawed in our Constitution. There are stringent laws like Prevention of Atrocities Against SCs & STs in our country. Religions are to spiritualize human beings and try to restore the equality of all human beings as the Creator intended. The tolerance of slavery for hundreds of years in the two organised religions was lamentable.

RSS Support

If persons of foreign origin, residues of foreign rulers and their collaborators and accomplices can rule the country, if some in the positions of power help scamsters, conmen and agents to take away billions of rupees from India and hide them in foreign banks, would it be a sin if some Indian organizations cry foul and support persons like Anna Hazare and Baba Ramdev in their movements for getting the black money into the country from abroad and declare that as National wealth, that the names of the thieves of India's wealth should be published that a stringent law should be made to punish evaders ? The RSS is not run by foreigners and the residues and their accomplices. Their nationalism and patriotism are far superior to any other. To denounce Baba Ramdev or Anna Hazare because they get the support of the RSS is to say that only the non-Indians and collaborators of foreigners are entitled to rule and loot this country.

20 more ?

Why should we have to have 20 more engineering colleges in addition to the 707 already existing? When for the 2,75,000 seats availability only 2,75,000 people appear in the test for admission in engineering colleges, why is this test at all? Is it not ridiculous that with the fee reimbursement even the worst performing intermediate passed candidate can complete engineering by paying Rs. 500 for registration,. while for a Nursery or a KG seat in a private school one has to spend Rs. 20,000 to 50,000. Engineering degree has been made the cheapest and the most worthless degree in A.P. These young men and women are certified but not qualified for anything. Should peoples tax money be spent for producing unemployable certificate holders instead of giving good education upto SSLC for all.

The Titular Prime Minister

It is becoming clear by the day that Sardar Manmohan Singh, the 13th Prime Minister of independent India is one of the most ineffective of the rank. He seems to be a spectator bearing only the title but not the authority of the Prime Minister. Right within the department he holds, there was the S-band scam; the 2G spectrum scam has been happening with full information being provided to him by the concerned Minister; three successive sports ministers had written to him about the irregularities in the Commonwealth Games Organization headed by a person not appointed by him. The Adarsh scam was not without information to him. The names of some of the persons who stashed black money in Swiss Banks are by now known to him but are not being divulged.

2. All these had been happening because he was appointed as proxy for somebody outside the cabinet. The Ministers have direct access to a non-constitutional authority and therefore the Prime Minister has been helpless in regard to whatever they have been doing. Each one of a class of businessmen in India has one of its men as "hathkadi walla" that is one, who could be hand cuffed when arrested by the police for transgressions of the law. Sri Manmohan Singh

seems to be the “hathkadi walla” for somebody else. It is a great nation that this great nation of 1220 mln people is having a titular Prime Minister and not one with authority. This is the main reason for the immense accumulation of black money and plunder of the country’s wealth by foreigners and their crony natives.

The Guilt of Corruption

The alacrity with which the UPA-II government is responding to the threatened fast unto death on the issue of corruption by Anna Hazare and Yoga Guru Baba Ramdev shows how heavy the guilt of corruption is weighing on the persons – the Prime Minister, Chair person of the UPA and their associates who have taken over this country and are treating this as their personal fiefdom allowing their coalition partners also to loot as much as they can. The appointment of committees and seeking the opinions of Chief Ministers etc., are totally dilatory tactics. There will be enough collaborators even among the civic society organs to be partners in this obfuscation moves of the UPA to derail the movements against corruption. Hundreds of millions of people are in great sympathy with the anti-corruption and black money movements. They are looking for some leader who will set fire to the fuel of anger against corruption in the highest quarters. If the UPA worthies are not guilty why are they embarking upon diversionary and delaying measures?

5-Rupee Coin in memory of Mother Teresa

Government of India’s Reserve Bank has brought out Rs.5/- coins in memory of Mother Teresa. There are equally virtuous and beneficent and even more intellectual savants who served and brought glory to this country. They were to mention a few, Swami Vivekananda, Chandrasekharendra Saraswati, Swami Dayananda, Adi Shankara, Goutham Buddha and Dr. Annie Besant. It will be non-discriminatory and highly commendable if the Government of India’s Reserve Bank produces Rs.5/- coins in memory of these great people of Bharat.

It is becoming clear that there is an unseen hand guiding organs of the government to glorify people of a particular faith. Some time ago Rs. 2/- coins were brought out with a cross. People of a particular faith are also being appointed to crucial positions like the Kalakshetra in Chennai, the UPSC and the CVC in Delhi and so on. The Chief Ministers and their parties in the States are also being kept under the guidance and control of people of particular faiths. All these point to the gradual loss of Swaraj for the majority people in this country and the rise of the rule of people of faiths of foreign origin and foreign birth.

Prime Minister and President not above Board

Objection to the inclusion of the Prime Minister and the President within the purview of the Jan Lok Pal betrays the guilt of the men and women who run the UPA. The series of scandals that have been exposed recently do show that the Prime Minister was not unaware of what was happening and yet he look the other way just to save the government by exit of the corrupt colleagues in the coalition. The person who is the President now has unrefuted allegations of corruption and wrong doing both by that person and the person’s spouse when they were running

the affairs of some institutions in their native town. Today corruption is flourishing mostly because of the Chief Ministers, the Prime Minister and President and even the Chief Justice of the Supreme Court have been having an unclean record, thus compromising the integrity in the whole government. Anna Hazare and those who will agree to the exclusion of the Prime Minister and the President and the Chief Justice from the purview of the Jan Lok Pal will be betraying the hundreds of millions of people whose hopes have been aroused by the recent upsurge of anger against the prevailing levels of corruption.

Padmanabha Treasure

Just as the wealth and treasure and funds of churches, Mosques and wakf cannot be used for the benefit of the general public either for their welfare or education or health or for irrigation or electrification, the wealth and treasure of Hindus temples whether they be of Ananta Padmanabha or Lord Venkateswara cannot be used for the general benefit of people of all the faiths and religions. It is the Hindu devotees and rulers that had given the gifts and the offerings to their deities who are in the image of gods that they believe in and worship. Neither government nor any political party will be justified in demanding the treasures of Hindus temples is utilised for general purposes.

END
